

to Users of PKI certificates DATE Oktober 12, 2011

Dear sir / madam,

Hereby we would like to notify you with the strategy to migrate all parties who are using a DigiNotar certificate to a new TenneT certificate.

TenneT decided to spread the migration over six weeks. The main reason for this strategy is to reduce the risk for business continuance. This reduction is the reason that migration at once is not an option. **Every migration will take place on a Wednesday after fiat.**

Every party will be contacted personally by TenneT before migration.

Below you will find the planning:

Group	Date migration		Telephone appointment installation private key	
	<i>Data</i>	<i>Week</i>	<i>Data</i>	<i>Week</i>
Group 1	Wednesday October 19	Week 42	Wednesday October 12 – 18	Week 41 – 42
Group 2	Wednesday October 26	Week 43	Wednesday October 19 – 27	Week 42 - 43
'Stop week'	No migration	Week 44	No calls	No calls
Group 3	Wednesday November 9	Week 45	Wednesday November 2 – 8	Week 44 - 45
Group 4	Wednesday November 16	Week 46	Wednesday November 9 – 15	Week 45 - 46
Group 5	Wednesday November 23	Week 47	Wednesday November 16 – 22	Week 46 - 47
TenneT certificates	Wednesday November 30	Week 48	Wednesday November 23 – 29	Week 47 - 48

In the beginning of next week we will send out a document with the groups and instructions.

All parties please note that if you are not migrating in a certain week, you still need to be aware of downloading the relevant public keys of parties who are migrating in a certain week. We will publish a list of parties who you can download a new public key from and a list of parties who are migrated. These lists will be updated frequently. Please check this list in order to download the relevant public keys before

TO Users of PKI certificates DATE Oktober 12, 2011

migration on the website: <http://www.tennet.org/klanten/Diensten/PKI-certificaat.aspx>

You will need the following information to apply for a new certificate

- Request ID
- Old TenneT certificate with the expiring date October 4th 2011.

The exact procedure will follow as soon as possible.

In case it is not possible to sign the request of your private key with an the old TenneT certificate. We do have a back-up procedure.

If you have any questions, please do not hesitate to contact us.

Kind regards, the PKI-team
